## feedback

I am really thankful that i decided to give myself some time to decide where i will be taking coaching. I waited for around 2 months exploring every option. I finally got to know about Paras Institute. Teachers here are very supportive and most importantly very friendly. And it really motivates me to see that along students, teachers also put all their effort. I face a lot difficulties in memorizing and Gaurav sir makes his class so interesting in every single topic, that i really don't need to put extra efforts to learn. And specially Sunrendra Sir, how he teaches is incredible, his experience helps me a lot and his time management classes also helps a lot. I really want to follow the schedule that sir has advised. Teaching at Paras Institute is really different from that of a school. Currently, I am doing online classes but personally i wish that i could attend all the classes physically. 😊😊
