Dream of becoming a Chartered Accountant is accomplished. It has become possible only because of my hard work, support of my parents and guidance of my teacher special thanks to Paras Institute.

This all started from CPT in which I got 179/200. It was the real inspiration which made me believe that yes, I can do it ! Systematic routine of Paras Institute helped me a lot throughout the course. These habits built at CPT and IPCC level helped me in finals too.

One must complete his/her Articleship well as it is the application of what we study. This is not the end what I have achieved till now and I hope to achieve more and more in life.
