I like Paras Institute very much. The decision of taking admission in Paras Institute was a life changing decision for me. Paras Institute helped me in affixing the word "CA" before my name and developed my personality too. The way of teaching, the dedication of all teachers towards every student and their guidance was great. Though the entire system of Paras is incomparable but the test system is the main strength as per my view. Periodic and timely tests and quick checking helped me a lot in performance evaluation and improvement. Paras Institute does not work for studies only but also for the social life and moral beliefs through motivational programmes. They support each and every student to the last moments of the exams and even afterwards they support their students. For me Paras Institute is the best Institute I had ever seen.

Thanks Paras Institute.
